Acronyms and Abbreviations

Acronym	Meaning
AME	Aviation Medical Examiner
AMO	Approved Maintenance Organisation
ANSP	Air Navigation Service Provider
AOC	Air Operator Certificate
ASL	Air Service Licence
ATC	Air Traffic Controller
ATO	Aviation Training Organisation
ATS	Air Transport Services
CASP	Civil Aviation Services Portal
C of A	Certificate of Airworthiness
ETOPS	Extended-range Twin-engine Operational Performance Standards
GePG	Government Electronic Payment Gateway
ICAO	International Civil Aviation Organization
KMP	Key Management Personnel
MEL	Minimum Equipment List
MMEL	Master Minimum Equipment List
PASI	Pre-Application Statement of Intent
PBN	Performance-Based Navigation
RVSM	Reduced Vertical Separation Minimum
SMS	Safety Management System
SOP	Standard Operating Procedure
TCAA	Tanzania Civil Aviation Authority

Part I – Core Portal Guide

1. Introduction

1.1 Purpose

The Tanzania Civil Aviation Authority (TCAA) is implementing a programme of continual improvement aimed at modernizing its business processes, operational systems and information management. These initiatives are intended to enhance service delivery, strengthen regulatory oversight, improve operational efficiency, promote transparency and accountability, and align the Authority's services with national priorities and international best practices.

As part of these initiatives, the Authority has introduced the Civil Aviation Services Portal (CASP), an integrated web-based platform that automates end-to-end regulatory business processes across various technical and operational areas. The Portal facilitates online service delivery, electronic payments, workflow and document management, automated notifications, dashboards and real-time reporting. In addition, the Authority has established a twenty-four-hour Customer Service Help Desk to provide continuous customer support.

This manual provides step-by-step guidance for using the CASP Front Office Portal. It is intended to assist applicants in navigating the portal, completing applications, uploading supporting documents, responding to regulatory actions, and managing issued licences, permits, and certificates.

1.2 Scope

This manual provides guidance on the use of the Civil Aviation Services Portal (CASP) Front Office for the regulatory services available within the portal.

It covers common portal functions applicable to all users, including account registration, profile management, dashboard navigation, application submission, document management, payment processing, application tracking, meeting responses, and credential management. It also provides detailed procedures for the service streams available within the current release of the portal.

Although application forms, supporting documents, and regulatory requirements differ between service streams, the underlying workflow—including service selection, profile validation, data entry, document upload, submission, payment (where applicable), and application tracking—remains consistent throughout the portal.

This manual will be updated periodically to incorporate additional services and enhancements introduced in future CASP releases.

1.3 Target Audience

This manual is intended for aviation stakeholders who access regulatory services through the Civil Aviation Services Portal.

The primary audience includes:

- Commercial Air Operators
- Aircraft Owners and Operators
- Air Navigation Service Providers
- Approved Maintenance Organisations
- Aviation Training Organisations
- Aerodrome Operators
- Ground Handling Service Providers
- Aviation Security Organisations
- Individual aviation professionals, including pilots, aircraft maintenance engineers, air traffic controllers, and other licensed personnel.

The manual also serves as a reference for TCAA inspectors, certification teams, and technical officers who provide guidance and support to external applicants using the Front Office Portal.

1.4 Portal Overview

The Civil Aviation Services Portal (CASP) is a unified digital platform developed to modernize the delivery of civil aviation regulatory services in Tanzania. The portal replaces paper-based application processes with secure electronic workflows that improve efficiency, transparency, and service delivery.

CASP enables applicants to:

- Create and manage stakeholder profiles.
- Submit applications for regulatory approvals.
- Upload supporting documents electronically.
- Receive invoices and make payments through approved payment channels.
- Monitor application progress in real time.
- Respond to requests for additional information or document resubmission.
- Confirm attendance for meetings scheduled by TCAA.
- View, download, renew, and manage issued licences, permits, and certificates.
- Receive system notifications and email updates throughout the application lifecycle.

The portal integrates multiple regulatory service streams into a single platform, allowing applicants to access services using one stakeholder profile without maintaining separate accounts for different departments.

1.5 Regulatory Service Streams

The Civil Aviation Services Portal (CASP) organizes regulatory services into dedicated service streams, enabling applicants to access services relevant to their operational or professional activities.

The service streams available through the portal include:

- **Airworthiness**
- **Flight Operations**
- **Personnel Licensing**
- **Aerodromes & Ground Aids**
- **Aviation Security**
- **Air Navigation Inspectorate**
- **Aviation Medicine**
- **Air Transport Services**

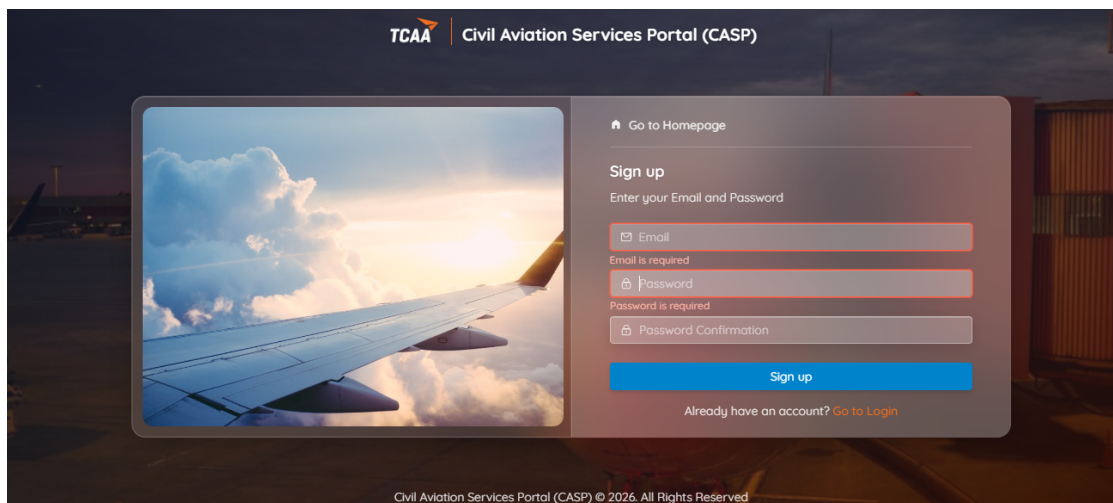

Each service stream contains one or more regulatory application types designed to support specific certification, licensing, permit, approval, or authorization processes. Depending on the selected service, applicants may be required to choose the appropriate application category before proceeding the application.

2. Getting Started

This chapter describes the steps required to access the Civil Aviation Services Portal for the first time, including account registration, account activation, login, and initial profile completion.

2.1 Account Registration

1. Go to **<https://portal.tcaa.go.tz/register>**.
2. Enter your email address and create a password.
3. Click **Sign up**.
4. Open the activation email from TCAA.
5. Select the activation link to activate your account.

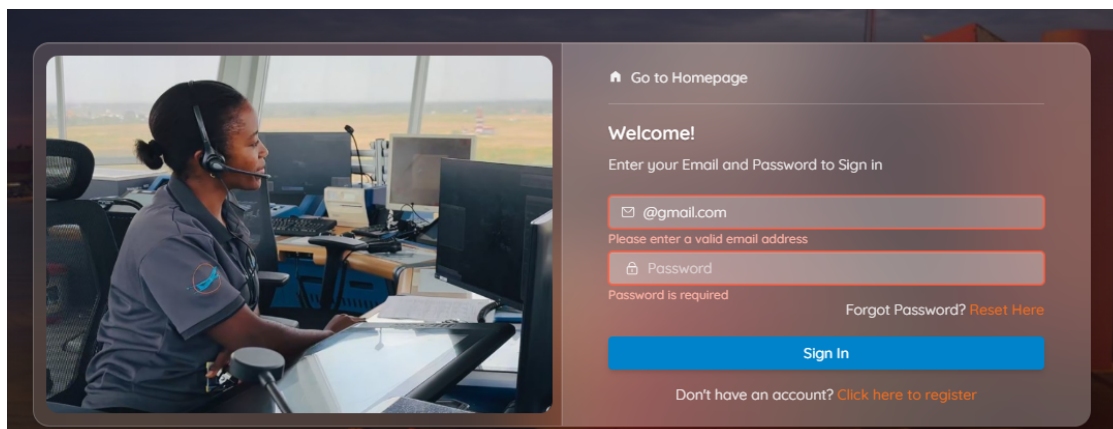

2.2 First-Time Login and Profile Completion

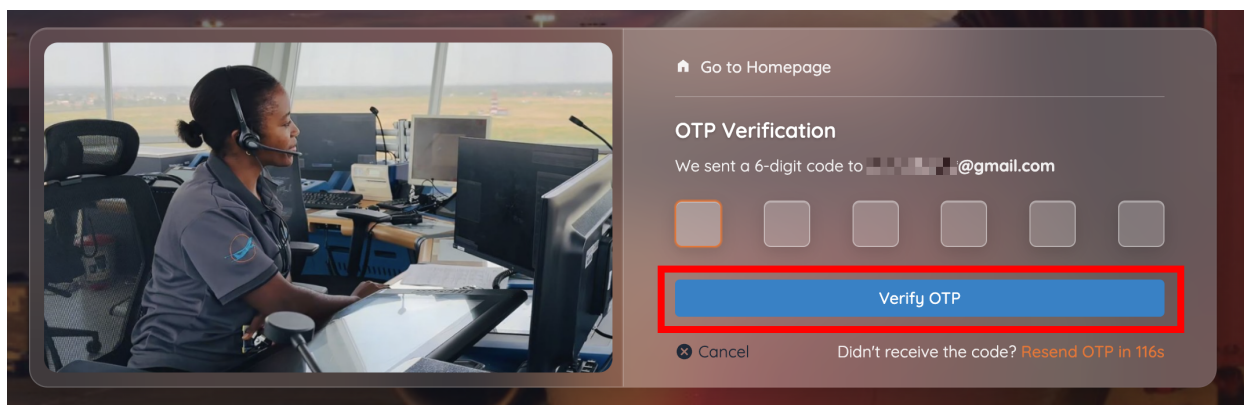

After activating your account, sign in to CASP and complete your profile before accessing portal services.

2.2.1 Signing In

1. On the **Sign In** page, enter your registered email address and password.
2. Click **Sign In**.

3. A One-Time Password (OTP) is sent to your registered email address.
4. Open the email, retrieve the OTP, and enter it in the verification page.
5. Click **Verify OTP** to complete the sign-in process.

Upon successful verification, the system grants access to the CASP profile page.

2.2.2 Completing Your Profile

1. Select your **Account Type** (for example, **Individual**).

Complete Entity Profile Files size: 0.00 MB (0.00% of 50 MB) 50.00 MB remaining

Back **Save as Draft** **Submit**

The system displays the message:

"Profile submitted. Please sign in again to access the portal."

Sign in again using your registered email address and password to access all CASP services.

Important: Profile completion is mandatory before submitting any regulatory application through CASP.

2.3 Resetting a Forgotten Password

If you have forgotten your password, you can reset it using the registered email address associated with your CASP account.

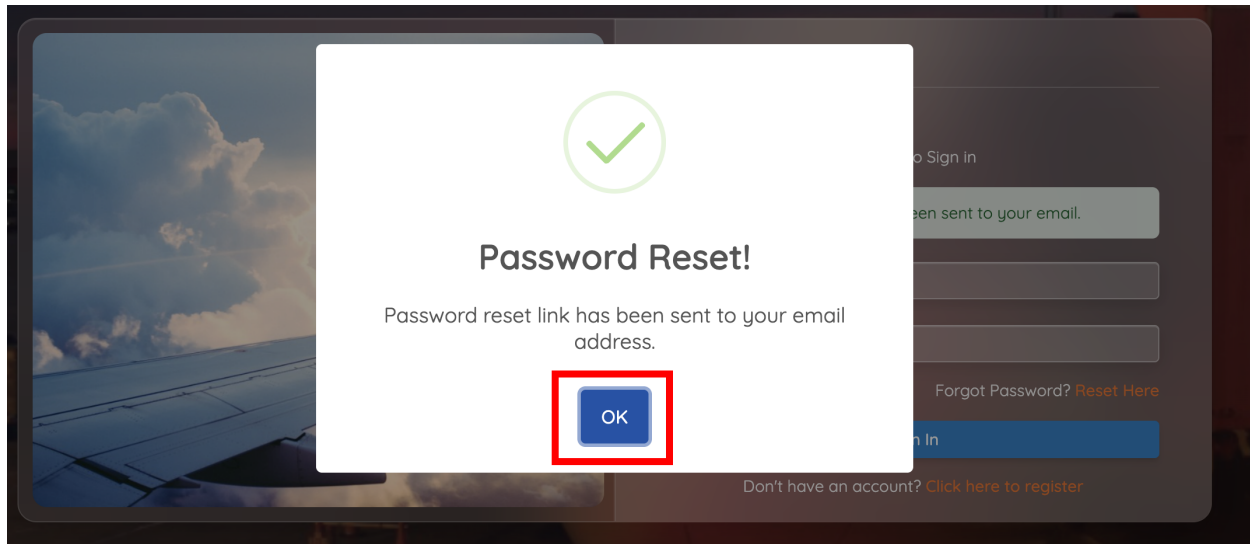

2.3.1 Requesting a Password Reset

1. On the **Sign In** page, click **Forgot Password?**

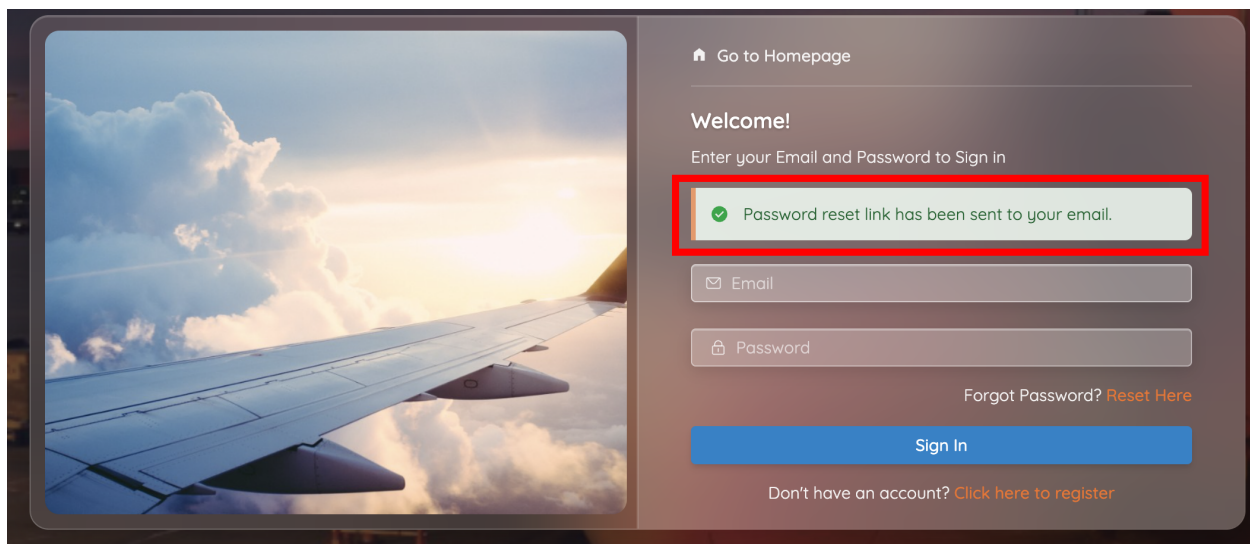

The screenshot shows the 'Sign In' page of the Tanzania Civil Aviation Authority portal. On the left is a large image of an airplane on a tarmac at sunset. On the right is a white sign-in box with a dark header. The header contains a home icon and the text 'Go to Homepage'. Below this is a 'Welcome!' message followed by the instruction 'Enter your Email and Password to Sign in'. There are two input fields: 'Email' and 'Password'. To the right of the 'Password' field is a red-bordered box containing the text 'Forgot Password? Reset Here'. Below the input fields is a blue 'Sign In' button. At the bottom of the box is a link: 'Don't have an account? Click here to register'. At the very bottom is a white box with a book icon, the text 'Need help? View the Portal User Manual', and a share icon.

2. Enter your registered email address.
3. Click **Reset** then click **OK**.

The screenshot shows the 'Forgot Password?' page. On the left is a large image of an airplane on a tarmac at sunset, with navigation arrows on either side. On the right is a white box with a dark header. The header contains a home icon and the text 'Go to Homepage'. Below this is the title 'Forgot Password?' followed by the instruction 'Enter your email address to get a password reset link'. There is a single input field with an envelope icon and the placeholder text 'Enter your email'. This input field is highlighted with a red border. Below the input field is a blue 'Reset' button. At the bottom of the box is a link: 'Back to Login'.

The system sends a password reset link to the registered email address.

2.3.2 Resetting the Password

1. Open the password reset email received from TCAA.
2. Click the password reset link.
3. Enter a new password.
4. Re-enter the password to confirm.
5. Click **Reset Password**.

Upon successful password reset, the system displays a confirmation message. You may then sign in using your new password.

3. Dashboard

The Dashboard is the main workspace of the Civil Aviation Services Portal (CASP). It is displayed immediately after a successful login and provides a centralized view of your regulatory activities and serves as the starting point for managing applications, payments, meetings, notifications, licences, permits, and certificates.

From the Dashboard, you can:

- Start new service applications.
- Monitor the status of submitted applications.
- Resume draft applications.
- Respond to actions requiring your attention.
- View licences and certificates.
- Review notifications and pending bills.
- Track application progress.
- Access your account settings.

3.1 Dashboard Overview

After signing in, the Dashboard opens as the default landing page. It provides a consolidated view of your applications, licences, certificates, notifications, and other regulatory activities, allowing you to monitor and manage all portal interactions from a single location.

3.2 Dashboard Components

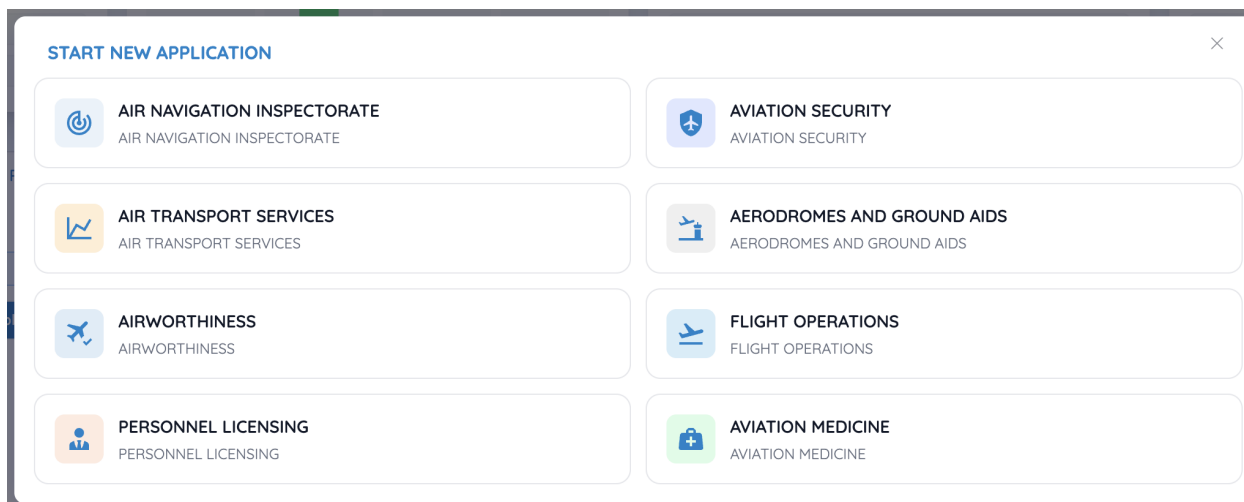

The Dashboard consists of several functional components that provide quick access to portal features and application information.

3.2.1 Dashboard Header

The Dashboard Header displays a welcome message and includes the **New Application** button for initiating a new regulatory application.

Selecting **New Application** displays the available regulatory service streams for selection.

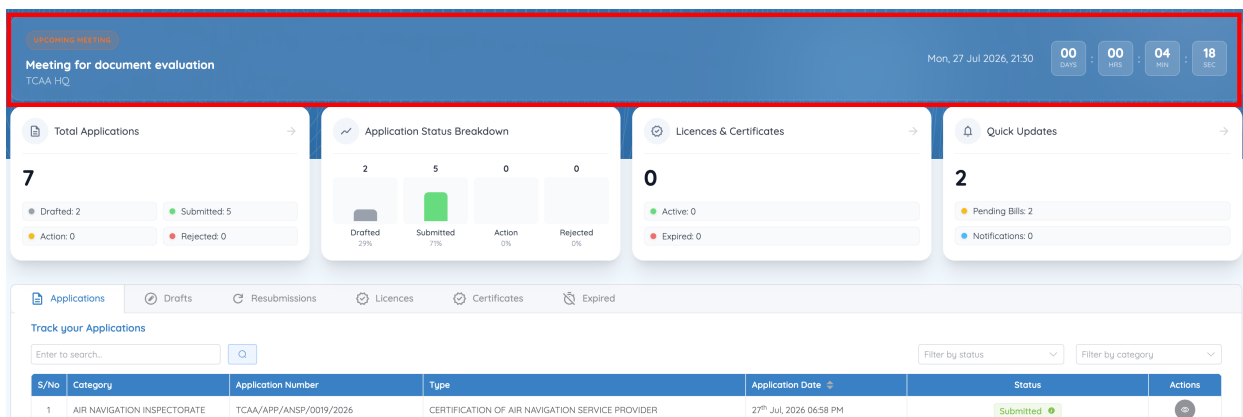

3.2.2 Upcoming Meeting Countdown

When a meeting has been confirmed, the Dashboard displays an **Upcoming Meeting** banner in place of the welcome message.

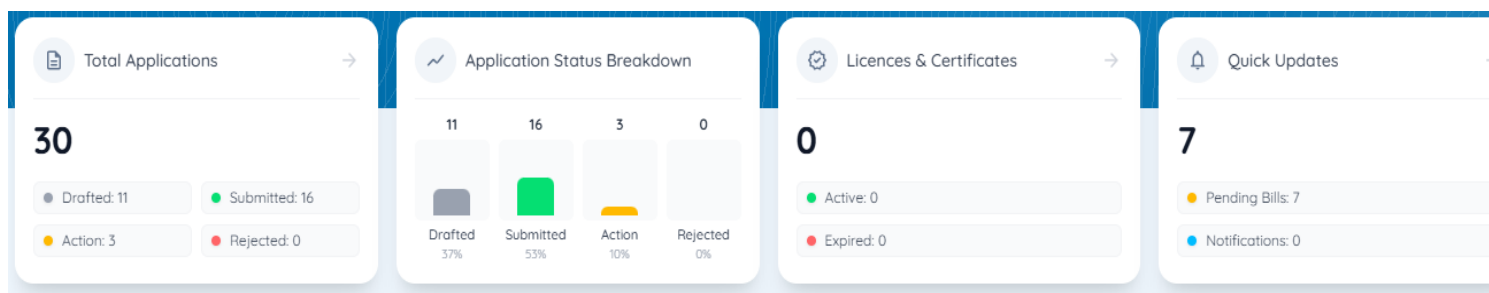

The banner displays the meeting title, venue, scheduled date and time, and a live countdown to the meeting after TCAA has approved the applicant's proposed meeting date and attendees.

Note: The **Upcoming Meeting** banner is a reminder only. Full meeting details are available in the meeting invitation email and the **Meetings** tab of the application.

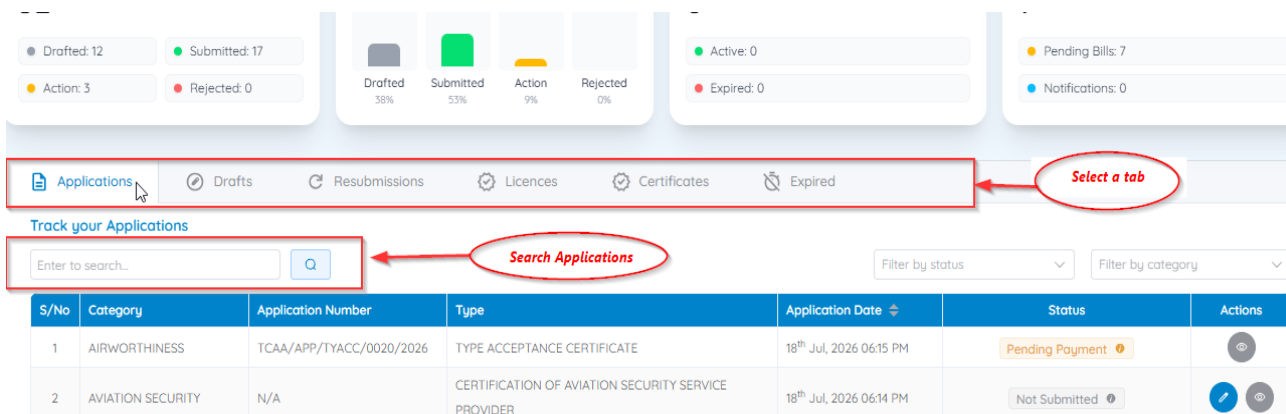

3.2.3 Dashboard Summary Cards

The Dashboard includes interactive summary cards that provide an overview of your applications, application statuses, licences and certificates, pending bills, and notifications. Select a summary card to open the corresponding page and view detailed information and available actions.

3.2.4 Track your applications

Located at the bottom of the Dashboard or by clicking **Total Applications** card, this section allows you to view and manage your applications and credentials. Use the navigation tabs to switch between **Applications**, **Drafts**, **Resubmissions**, **Licences**, **Certificates**, and **Expired** records.

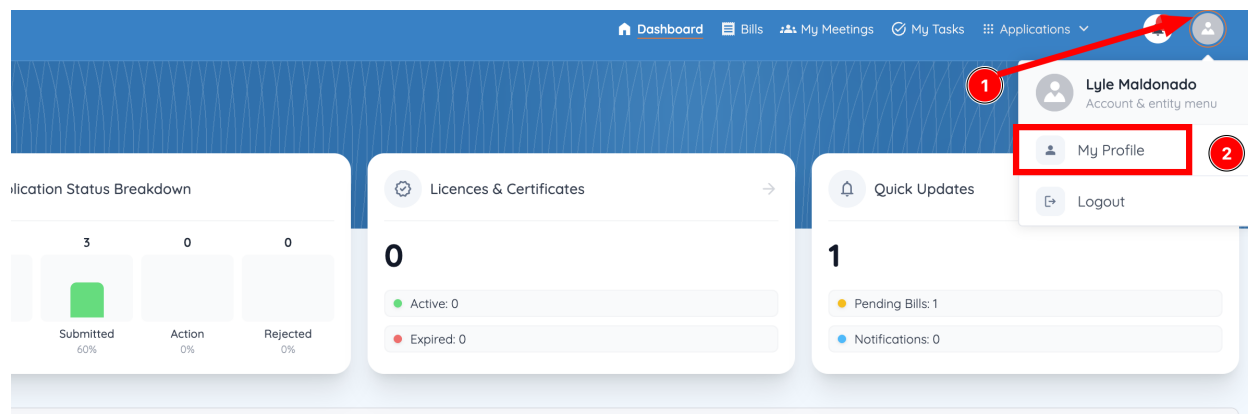

The selected records are displayed in a searchable table containing key information, including the application category, application number, application type, application date, current status, and available actions. Use the search box to quickly locate a specific record.

4. Managing Your Account

This chapter describes how to update your profile information in the Civil Aviation Service Portal (CASP). The **My Profile** page allows you to manage your personal information and, where applicable, the information associated with your organization (entity). The information available depends on the type of account registered.

To access your profile:

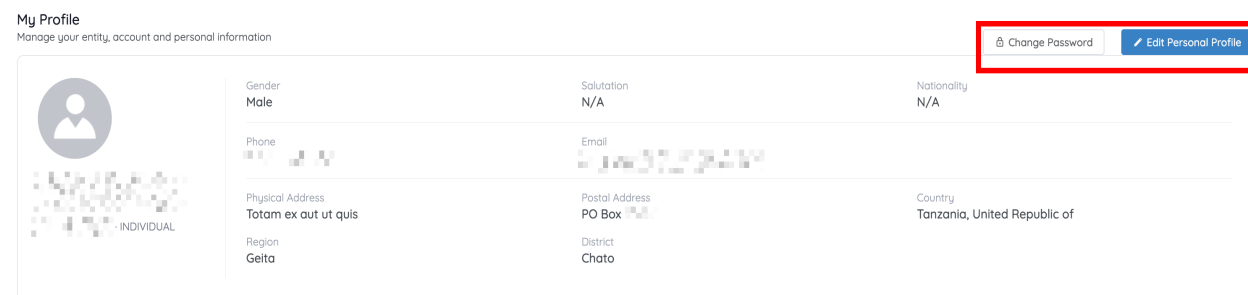

1. From the Dashboard, click the **Profile** icon in the top-right corner.
2. Click **My Profile**

4.1 Updating Personal Information

To update your personal profile:

1. On the **My Profile** page, click **Edit Personal Profile** section.

2. Update the required information.

3. Click **Update User Profile** to apply the changes.

4.2 Changing Your Password

To change your account password:

1. On the **My Profile** page, click **Change Password**.
2. Enter your current password.
3. Enter and confirm the new password.
4. Click **Submit Changes** to update your password.

CHANGE PASSWORD

Password Change

Note:

It is recommended to update passwords at least every three months. This ensures that if a password is compromised, the time that a cybercriminal remains inside the hacked account is relatively short.

4.3 Managing Entity Information

Where applicable, organization accounts can manage information relating to their registered entity from the **My Profile** page. Select the appropriate tab to view or update the required information.

4.3.1 Entity Details

The **Entity Details** tab displays the organization's registered information.

1. On the **My Profile** page, select **Entity Details**.
2. Click **Edit details** to update the required information.

After completion the system displays a confirmation message indicating that the profile has been updated successfully.

5. Working with Applications

This chapter describes the general process for starting a new application in the Civil Aviation Services Portal (CASP). While the available service streams, application categories, and sub-categories vary depending on the selected regulatory service, the navigation process remains consistent throughout the portal.

5.1 Starting a New Application

1. From the **Dashboard**, click **New Application**.

The system displays the available regulatory service streams.

5.2 Selecting a Service Stream

Select the required regulatory service stream from the list of available services.

The screenshot shows a window titled "START NEW APPLICATION" with a close button (X) in the top right corner. Inside the window, there are eight service stream options arranged in a 4x2 grid, each with an icon and text:

- AIR NAVIGATION INSPECTORATE** (Icon: Radar)
- AVIATION SECURITY** (Icon: Shield with airplane)
- AIR TRANSPORT SERVICES** (Icon: Airplane on a runway) - This option is highlighted with a blue border.
- AERODROMES AND GROUND AIDS** (Icon: Tower with light)
- AIRWORTHINESS** (Icon: Airplane)
- FLIGHT OPERATIONS** (Icon: Airplane in flight)
- PERSONNEL LICENSING** (Icon: Two people)
- AVIATION MEDICINE** (Icon: Medical cross)

The **Application Guidelines** page for the selected service stream is displayed.

1. Review the application guidelines.
2. Select **Continue with Application** to proceed.

The screenshot shows the "Application Guidelines" page for "AIR TRANSPORT SERVICES". At the top, there is a header with a book icon and the text "Application Guidelines" and "Please read through the guidelines before continuing". Below this, a blue banner contains the text: "Please review the guidelines for AIR TRANSPORT SERVICES application". The main content area is titled "AIR TRANSPORT SERVICES" and contains the following text: "The Tanzania Civil Aviation Authority (TCAA) is mandated to license all air services in the country. This is pursuant to the Civil Aviation Act, CAP 80 (Rev. 2020) and the Civil Aviation (Licensing of Air Services) Regulations, 2006." Below this text, there is a section titled "2.1 Licensing requirements". At the bottom right of the page, there are two buttons: "Apply Later" and "Continue with application".

5.3 Selecting an Application Category

Where applicable, select the appropriate application category.

1. Category

2. Application Details

3. Dec

* Category
PERMIT

* Sub-Category
PERMIT
LICENSE
BILATERAL AIR SERVICE AGREEMENT

5.4 Selecting an Application Sub-Category

Where applicable, select the required application sub-category.

* Category
PERMIT

* Sub-Category
Select sub-category
This field must be selected.

Landing Permit
Overflight Permit
Diplomatic Permit

Select **Next** to continue, a confirmation message notes that the category cannot be changed after proceeding.

Select **Proceed** to continue, or **Review Category** to select a different category.

Confirm Category Selection

Once you proceed, the selected application category will be saved permanently and cannot be edited later. Do you want to continue?

Review Category Proceed

The system opens the application form for the selected service.

5.5 Saving and Resuming Draft Applications

The Civil Aviation Services Portal (CASP) automatically saves an application as a **Draft** when you leave the application before submitting it. This allows you to complete the application at a later time without losing the information already entered.

5.5.1 Resuming a Draft Application

1. From the **Dashboard**, navigate to the **Track Your Applications** section.
2. Select the **Drafts** tab.
3. Locate the application you wish to continue.
4. In the **Action** column, select **Update Application**.

The screenshot displays the TCAA Dashboard. At the top, there are four summary cards: 'Total Applications' (1 Drafted, 0 Submitted, 0 Action, 0 Rejected), 'Application Status Breakdown' (1 Drafted, 0 Submitted, 0 Action, 0 Rejected), 'Licences & Certificates' (0 Active, 0 Expired), and 'Quick Updates' (0 Pending Bills, 0 Notifications). Below these is a navigation bar with tabs: 'Applications', 'Drafts' (highlighted with a red box), 'Resubmissions', 'Licences', 'Certificates', and 'Expired'. The 'Drafts' tab is active, showing a table of 'Drafted Applications'. The table has columns: S/No, Category, Application Number, Type, Application Date, Status, and Actions. One application is listed: S/No 1, Category AIRWORTHINESS, Application Number N/A, Type TYPE ACCEPTANCE CERTIFICATE, Application Date 28th Jul, 2026 12:02 PM, Status Not Submitted, and Actions (pencil icon). A red arrow points to the pencil icon. At the bottom right, a 'Next' button is highlighted with a red box.

5. System will open your application with its category selected select **Next**

The screenshot shows the 'Application for Air Service License (Air Transport Services)' form. The progress bar indicates 15% completion. The first step, '1. Category', is active. The form contains a 'Product Category' section with a dropdown menu showing 'Air Service License'. A red box highlights the 'Next' button at the bottom right.

The system opens the saved application, allowing you to continue from where you left off.

5.6 Understanding Application Statuses

The **Track Your Applications** section on the Dashboard provides real-time visibility of the progress of your applications throughout the regulatory review process. Each application status indicates the current stage of processing and whether any action is required from the applicant.

For applications requiring payment, additional billing information is available from the **Bills** page and the **Billing** tab within the application.

Applicants also receive an email notification whenever the status of an application changes.

5.6.1 Application Status Definitions

The following statuses may be displayed in the **Track Your Applications** section.

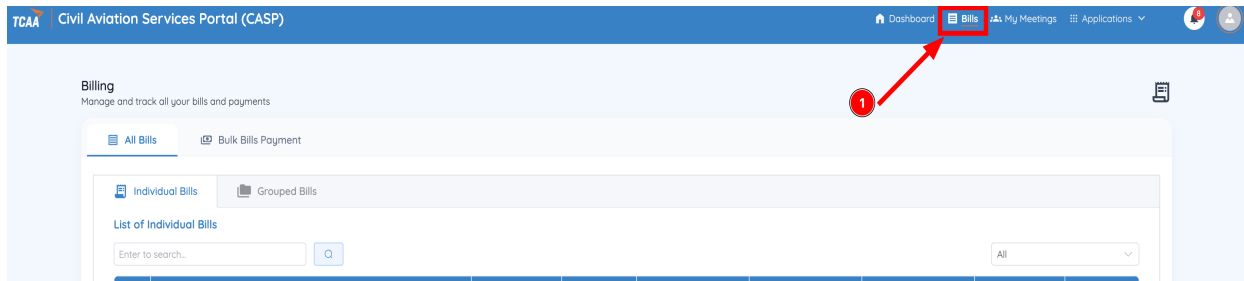

Status	Description
Not Submitted	The application has been started and saved as a draft but has not yet been submitted.
Submitted	The application has been successfully submitted and is awaiting TCAA review.
Pending Payment	Payment is required before the application can proceed to the next stage of processing.
Invited for Meeting	A meeting has been scheduled and requires the applicant to confirm attendance.
Invited for Form Submission	Additional application forms must be completed before assessment can continue.
Returned for Resubmission	The entire application has been returned for correction and resubmission.
Form Resubmission	Specific documents or sections require correction and resubmission based on checklist evaluation.
Rejected	The application did not meet the applicable regulatory requirements.

5.6.2 Billing Status Definitions

Billing information is displayed in the **Bills** page and in the **Billing** tab of an individual application.

The following billing statuses may be displayed:

Status	Description
Pending	The billing process is in progress and payment is not yet available.
Billed	An invoice has been generated and is available for payment.
Paid	Payment has been successfully received and the billing process is complete.

5.6.3 Notifications

The **Notifications** panel provides quick access to activities requiring attention or informing the applicant of recent updates.

Notifications may include:

- Clarifications
- Resubmissions
- Pending Bills
- Meeting Invitations

Select a notification icon to view its details and complete the required action.

⚠ Important: When notifications requiring applicant action are available, the **Notifications** panel opens automatically when the applicant signs in. Monitor your notifications regularly and complete all required actions within the specified timeframes to avoid delays in the processing of your application.

6. Common Portal Functions

This chapter describes portal functions that are common across all regulatory service streams. Although individual application processes may differ depending on the selected service, these functions are available throughout the Civil Aviation Services Portal (CASP) and are used to support application processing from submission through final approval.

6.1 Billing and Payment

Certain regulatory applications require payment of prescribed fees before processing can continue. Once an application reaches the billing stage, CASP generates an invoice and Government Electronic Payment Gateway (GePG) Control Number for payment.

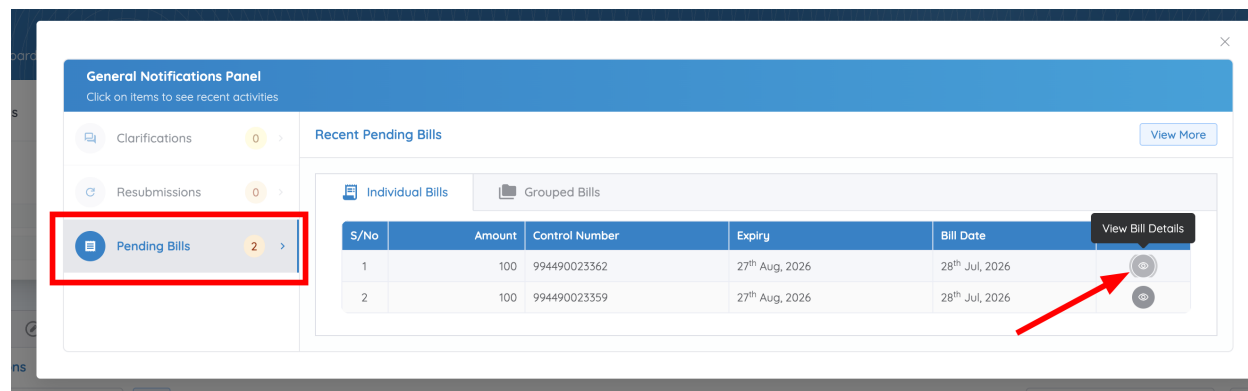

The stage at which payment is required depends on the regulatory service and application type. For some applications, billing is initiated immediately after submission, while for others it is generated after an initial review by TCAA. Applicants should monitor the application status and billing information in CASP to determine when payment is required.

6.1.1 Accessing the Billing Information

After receiving a clarification notification, access the request using either of the following methods.

Option 1: Through Notifications

1. Sign in to CASP.
2. If the **Notifications** panel does not open automatically, on the dashboard click the **Notifications** icon.
3. Select **Pending Bills**.
4. Locate the relevant application.
5. Click **View Bill Details** in the **Action** column.

Option 2: Through Track Your Applications

1. From the **Dashboard**, navigate to **Track Your Applications**.

2. Select the **Applications** tab.
3. Locate the required application.
4. Select **Action**, labelled **View Application Details**.

6.2 Meeting Invitations and Confirmation

Certain certification and approval processes require applicants to attend meetings with TCAA during various stages of evaluation.

When a meeting is scheduled, the applicant receives an email notification containing the meeting details, including the meeting date, time, venue (or virtual meeting information), and any preparation instructions.

6.2.1 Confirming Attendance

1. Open the meeting invitation email received from TCAA and review the meeting details.
2. Log in to the Civil Aviation Services Portal (CASP).
3. From the **Dashboard**, navigate to **Track Your Applications**.
4. Locate the application with the status **Invited for Meeting**.
5. Click the **Action** button and select **View Application**.

To view meetings for a specific application:

1. From the **Dashboard**, navigate to **Track Your Applications**.
2. Locate the required application and select **View Application Details**.

3. Open the **Meetings** tab.

The **Meetings** tab displays only the meetings associated with the selected application, including their status and details

6.3 Responding to Clarifications

During application processing, TCAA may request additional information or clarification without changing the application status. When a clarification is issued, a notification is displayed in the **Notifications** panel and opens automatically when the applicant signs in.

6.3.1 Accessing a Clarification Request

After receiving a clarification notification, access the request using either of the following methods.

Option 1: Through Notifications

1. Sign in to CASP.
2. If the **Notifications** panel does not open automatically, on the dashboard click the **Notifications** icon.
3. Select **Clarifications**.
4. Locate the relevant clarification.
5. Click **Respond** in the **Action** column.

6.4 Responding to a Formal Application Invitation

Following submission of the initial application, TCAA may require the applicant to complete one or more additional application forms before the application can proceed. Depending on the workflow, this may occur at different stages of the application lifecycle, most commonly at the beginning of the formal application stage. When required, the application status is updated to **Invited for Form Submission**, and the applicant receives an email notification.

To access the Formal Application:

1. From the **Dashboard**, navigate to **Track Your Applications**.
2. Locate the application with the status **Invited for Formal Application**.
3. Click **Action** and select **View Application Details**.

7. Conclusion

Part I of this manual has introduced the core functions of the Civil Aviation Services Portal (CASP) and the procedures commonly used throughout the application lifecycle. By following the guidance provided, applicants can create and manage their accounts, submit and track applications, make payments, respond to regulatory actions, and access issued licences, permits, and certificates through the portal.

Applicants are encouraged to refer to this guide whenever using CASP to ensure that applications are submitted accurately and regulatory requirements are completed in a timely manner.
